March 13, 2019

Dear Northwood Manor Residents:

On March 14<sup>th</sup> we will be taking our private wells offline and connecting to Public Water. There will be an interruption in water service while this work is completed. Water service will be restored within a few hours. We are currently under a boil advisory. Once water service is restored we will be collecting samples to meet DEP's requirement. You will be notified with a notice delivered to your home once DEP approval is obtained.

Sincerely,

York Community Management
