

Board of Supervisors Meeting
August, 27 2019

Current Work:

Working on the third round of mowing along the roads.

Overlaid Grandview drive from Oak to just past Shady Lane to get some crown back in the road and fix the 5 inch deep ruts on the outside tire track before we tar and chip. Also paved a small section of Orchard Drive to fix an area that always laid full of water after it rained, and would be an ice pond all winter because the road was too flat to allow the water to run off.

Doing base repairs and filling in and smoothing out cross ditches or rough areas on the tar and chip contract roads. Project will start right after Labor Day weekend.

The Tar and Chip patch truck is coming this week to coat areas that are just starting to fail where we would benefit from having a double application instead of a single. I have them scheduled for two days to get everything we can do in the township.

Continuing to work the baseball fields to keep the grass out from the rains. I loaned my Lely Rotara to the township to speed up the tilling process getting rid of the grass and loosening up the top of the infields. All of the ball fields are ready for fall ball to begin.

Filling pot holes all over the township.

Replaced two pipes on Mulligan drive, added an inlet box to get rid of a large pipe inlet hole, we have two more to do. Replaced one pipe on Bunker and installed two new inlet boxes, one of which got rid of a large hole at the corner of Mulligan. We have one more inlet box to replace on Bunker. Then when EK Services come to pave all the water ditches they will pave our pipe trenches also.

Still cutting banks back and will continue after the projects are done for the year.

We will go back to cutting shoulders back too this fall.

Replacing another pipe on Ridgeview that has no bottom and is starting to collapse.
